**Application number:** CN19980100063 19980122  
**Priority number(s):** CN19980100063 19980122

## Abstract of CN1223795

A bactericidal additive for building materials such as pigment, paint, lacquer, putty and cement is prepared from carrier with pore size of 3-10 A and antibacterial metallic salt attached on the carrier through mixing the antibacterial metallic salt with solution of metal sodium, adding activated carrier, displacement, centrifugal dewatering and crushing, and features low cost, high antibacterialeffect, and no influence on the original physical and chemical properties of building materials.
